TECHNICAL SKILLS:

Programming Languages:	JavaScript, TypeScript, Python, C#
Libraries/Frameworks:	React.js, Next.js, Node.js, .NET, Flutter, Tailwind CSS
Tools/Platforms:	Git, GitHub, Vercel, Netlify, Mongo DB, Figma, Storybook, Qlik Sense

WORK EXPERIENCE

Büyük Anadolu Hospitals - Software Developer   Sep 2024 - Nov 2024

– Led the development of web projects using **React.js**, **Next.js**, **Node.js**, and **MongoDB** technologies.
– Managed **Git** flow, defined coding standards, and supervised merge operations for quality assurance.
– Created data-driven reports with **Qlik Sense**, providing actionable insights for hospital management.

Architecht(Kuveyt Türk Participation Bank) - Software Developer   Dec 2023 - Jun 2024

– Various screen enhancements and bug fixes were made in the desktop application named **BOA** and the web application named **BOA One**, which are used by various participation banks serving in Turkey.
– In web development, **TypeScript** and **React.js** were used for Frontend, while **.Net** and **MsSQL** were preferred for Backend.

Geniousoft - Intern Software Developer   Jul 2023 - Aug 2023

– Designed user-friendly interfaces using **Next.js** and **TypeScript** to enhance the user experience.
– A detailed story was written for the designed components and added to **Storybook**.

Dominage - Junior Software Developer   Jan 2023 - Feb 2023

– Integrated smart contracts using **Ethers.js**, enabling secure user interaction with crypto wallets
– Designed and developed user-friendly interface for swapping old **NFTs** with new ones for a rock band group

TrueFeedBack - Intern Software Developer   May 2022 - Dec 2022

– During these training sessions, I collaborated with teammates to complete the given tasks.
– I attended training sessions related to design and coding fundamentals.

PROJECTS

Nomad Work   Link

– Nomad Work is an **AI-powered** social media platform that helps remote workers choose suitable workspaces.
– It was developed using **TypeScript**, **Next.js**, **Python**, **FastAPI**, **Pandas**, **NLTK**, **Scikit-learn**, **Tailwind CSS** and various **APIs**.

Senchabot (Contributor)   Link

– SenchaBot is a **multi-platform** bot designed for seamless integration with Twitch and Discord.
– **Contributed** to the development of the front-end user interface using **Next.js** and **Tailwind CSS**, focusing on usability and responsiveness.
– Assisted in identifying and resolving front-end bugs to improve platform stability and user experience.

Listedfy

– Created prototypes using **Figma** to visualize and plan the user interface.
– Utilized **Airtable** as a database solution to facilitate user interaction with songs and playlist creation, contributing to a seamless user experience.
– Completed the project by incorporating the **Spotify API** into my design and developing the entire platform using **Next.js** and **TailwindCSS**.

EDUCATION

2020 - 2024   Konya Technical University - B.Sc. in Computer Engineering   (GPA: 3.0/4.0)
